This is the “references and further information” sheet for the Energy Beyond Oil 'E-series' sheet E11 – Fracking and coalbed methane. This provides the web links/references from the text of sheet E11, and a list of further web sites and information that you may find useful.

You can access revisions to this sheet, and the main handout itself, via the web page for this sheet in the publications section of the Free Range Activism web site – <http://www.fraw.org.uk/publications/e-series/e11/>
